March 24, 2017

PUBLIC NOTICE

Saraland Water and Sewer Service will begin the water flushing program in April 2017 and will continue for four months. We perform this preventative maintenance program to ensure quality water service throughout our distribution system.

During this time, you may experience lower water pressure than normal. If you have any water concerns, please do not hesitate to contact our office at 251-675-5126.

Thank you for your patience and we apologize for any inconvenience the flushing program may cause.

Sincerely,

A handwritten signature in black ink that reads "Chad Hennis".

Chad Hennis
Utilities Director
Saraland Water and Sewer Service
